### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 31, page 6, second to last line, replace "formulae" with "formula".

In claim 46, page 15, fourth line, replace "consisting in" with "consisting of".

These amendments are simply intended to correct typographical errors.

The **abstract** of this application has been amended as follows:

In the first line, replace "a compound" with "a cyclodextrin derivative".

In the fourth line, replace "Z is an NHX group" with "Z is a thiourea group".

At the end of the abstract, delete the phrase ", with the proviso that the compound wherein  $n = 1$ ,  $m = 6$ ,  $Z = \text{NH}_2$  and  $R_1 = \text{OH}$  is excluded".

### **DETAILED ACTION**

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on July 16, 2009 has been entered.

This Office Action is in response to Applicant's request for continued examination (RCE) filed July 16, 2009, and amendment and response to the Final Office Action (mailed January 16, 2009) and Advisory Actions (mailed May 1, 2009 and June 16, 2009), filed July 16, 2009 wherein claims 30 and 34 are amended and claims 1-29, 33, 36, 39-42, 44, and 45 are canceled.

Claims 30-32, 34, 35, 37, 38, 43, and 46-60 are pending. Claims 30-32 were previously withdrawn from consideration.

Applicant's amendment submitted July 16, 2009 is sufficient to overcome the issues set forth in the Advisory Actions mailed May 1, 2009 and June 16, 2009. The claims have been amended to clarify the identity of the multiplication element and the connectivity of the multiplication element to the core structure. The language "consisting of" clarifies that the multiplication element is limited to tris(2-hydroxymethyl)methyl radical or pentaerythritol radical. The language "multiplication element with several branchings comprising glucidic groups which can be identical or

different" is interpreted to mean that the multiplication element is substituted on the branchings with glucidic groups.

Claim 34 is directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(B), claims 30-32, directed to the process of making or using an allowable product, previously withdrawn from consideration as a result of a restriction requirement, are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Because all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, **the restriction requirement as set forth in the Office action mailed on November 28, 2007 is hereby withdrawn.** In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.

The following is an examiner's statement of reasons for allowance: Applicant's amendment as discussed above is sufficient to overcome the issue of clarity with respect to the identity and connectivity of the multiplication element, which was the only remaining issue in the case. The examiner's interpretation of the claim language is set forth above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to LAYLA BLAND whose telephone number is (571)272-9572. The examiner can normally be reached on Monday - Friday, 7:00 - 3:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Anna Jiang can be reached on (571) 272-0627. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
